GALAXY

BALL BEARING EP

GALAXY BALL BEARING EP is lithium soap grease formulated with superior quality base oils and additives, used for a wide range of purposes in various industries. It is recommended for the wheel ball bearings and central lubrication systems of automobiles, commercial vehicles, sports utility vehicles, agricultural machines and heavy duty machines not used at extremely heavy loads or extremely high temperatures. The product is a general purpose product designed to perform in a wide variety of application requiring grease with EP properties and load-carrying capacity. It's safely used at operating temperature not exceeding 130°C.
